VOL. 256

NEW HAVEN, CONNECTICUT

1958

INDEX TO VOLUME 256

A

Abel, Niels Henrik, mathematician extraordinary, Oystein Ore (Review), 439.

Acoustics, Joseph L. Hunter (Review), 368.

Aerodynamical phenomena in Australian tektites, George Baker, 369.

Age determinations, lead-alpha, of granitic rocks from Alaska, J. J. Matzko, et al., 529.

Alaska, lead-alpha age determinations of granitic rocks, J. J. Matzko, et al., 529.

Alberta, glacial flutings in central and northern Alberta, C. P. Gravenor and W. A. Meneley, 715.

Alpha-lead age determinations of granitic rocks from Alaska, J. J. Matzko, et al., 529.

Alumina plus ferric oxide, On the stability of the phase Fe_2O_3.Al_2O_3, Arnulf Muan, 398.

Argentina, Ordovician trilobites, Horacio Harrington and Armando Leanza (Review), 143.

Argon, system MgO—CO_2—A, effect of inert pressure on hydrothermal reaction, R. I. Harker, 128.

Arkell, W. J., Further comments on stratal terms (Discussion), 365.

Australian tektites, role of aerodynamical phenomena, George Baker, 369.

B

Bain, George W., Possible Permian climatic zonation and its application (Discussion), 596. Reply by Francis G. Stehli, 600.

Baker, George, The role of aerodynamical phenomena in shaping and sculpturing Australian tektites, 369.

Banno, Shohei, 97. See Miyashiro, Akiho.

Basement and mantle, interaction during folding, Rutland, Vermont, W. F. Brace, 241.

Bellaire, Angus d'A., Reptiles (Review), 64.

Blackmon, Paul D., Neutralization curves and the formulation of monovalent cation exchange properties of clay minerals, 733.

Blair, W. F., et al., Vertebrates of the United States (Review), 444.

Boldizsar, T., The distribution of temperature in flowing wells, 294.

Borchardt, R., 48. See Siegel, S. M.

Bordne, Erich F., review by, 144.

Brace, W. F., Interaction of basement and mantle during folding near Rutland, Vermont, 241.
review by, 222.

Brachiopods, Chazyan and related brachiopods, G. Arthur Cooper (Review), 142.

Bradley, W. H., review by, 604.

Broecker, W. S., Turekian, K. K., and Heezen, B. C., The relation of deep-sea sedimentation rates to variations in climate, 503.

Brucite, further attempt to determine the vapor pressure of, W. S. Fyfe, 729.

Burma, Geology of India and Burma, 3d ed., M. S. Krishnan (Review), 442.

C

Cailleux, André, 368. See Chavan, André.

California, geology of the Central Sierra Pelona, Los Angeles County, W. R. Muehlberger and H. S. Hill, 630.
glaciated peaks in the northern coast ranges, S. N. Davis, 620.
stratigraphy and radiocarbon dates at Searles Lake, R. F. Flint and W. A. Gale, 689.

Callender, D. L., and Folk, R. L., Idiomorphic zircon, key to volcanism in the Lower Tertiary sands of central Texas, 257.

Cambro-Ordovician limestones, structural petrology, northwest highlands of Scotland, C. B. Crampton, 145.

Canada, glacial map (Review), 443.

Carbon dioxide, system MgO—CO_2—A, effect of inert pressure on hydrothermal reaction, R. I. Harker, 128.

Cation exchange properties of clay minerals and neutralization curves, P. D. Blackmon, 733.

Célébonovic, Stevan, The living rocks (Review), 367.

Chapman, Carleton A., and Rioux, Robert L., Statistical study of topography, sheeting and jointing in granite, Acadia National Park, Maine, 111.

Chavan, André, and Cailleux, André, Détermination pratique des fossiles (Review), 368.

Chayes, F., review by, 440.

Chemical variations in the Wollaston granitic pluton, Hastings County, Ont., A. K. Saha, 609.

Chorley, Richard J., Group operator variance in morphometric work with maps, 208.

Christie, John M., Dynamic interpretation of the fabric of a dolomite from the Moine thrust-zone, northwest Scotland, 159.

Clark, S. P., et al., Reply to discussion by R. D. Schuiling, Kyanite-sillimanite equilibrium relations at high temperatures and pressures, 683.

Clarke-Leibniz correspondence, edited by H. G. Alexander (Review), 607.
Clay minerals from salt concentration ponds, William Quaide, 431.
Clays, landslides, Alexandre Colin (Review), 63.
Climate, relation of deep-sea sedimentation rates, W. S. Broecker, K. K. Turekian, and B. C. Heezen, 503.
Colin, Alexandre, Landslides in clays (Review), 63.
Cooper, G. Arthur, Chazyan and related brachiopods (Review), 142.
Crampton, C. B., Structural petrology of Cambro-Ordovician limestones of the northwest highlands of Scotland, 145.
Crandell, D. R., Mullineaux, D. R., and Waldron, H. H., Pleistocene sequence in southeastern part of the Puget Sound Lowland, Washington, 384.
Crystallography, Einfürung in die geometrische und physikalische Kristallographie und in deren Arbeitsmethoden, 3d ed. (Review), Franz Raaz and Hermann Tertsch, 685.
laboratory manual for students, George Tunnell and Joseph Murdoch (Review), 62.

D

Davidson, C. F., review by, 442.
Davis, Margaret Bryan, Three pollen diagrams from central Mass., 540.
Davis, Stanley, N., Glaciated peaks in the northern coast ranges, California, 620.
Deep-sea sedimentation rates relation to climate, W. S. Broecker, K. K. Turekian, and B. C. Heezen, 503.
de Sitter, L. U., Structural geology (Review), 300.
Dickson, F. W., and Tunell, George, Equilibria of red HgS (cinnabar) and black HgS (metacinnabar) and their saturated solutions in the systems $HgS—Na_2S—H_2$ and $HgS—Na_2S—Na_2O—H_2$ from 25°C to 75°C at 1 atmosphere pressure, 654.
Differentiated teschenite sill, petrology, New South Wales, J. F. G. Wilkinson, 1.
Dike swarm, Teanaway, central Washington, R. J. Foster, 644.
Dolomite, fabric, dynamic interpretation, Moine thrust-zone, northwest Scotland, John M. Christie, 159.
Donn, William L., and Shimer, John A., Graphic methods in structural geology (Review), 685.
Drumlins, narrow linear, North Dakota, R. W. Lemke, 270.

Systems HgS—Na_2S—H_2 and HgS—Na_2S—Na_2O—H_2, F. W. Dickson and George Tunell, 654.
MgO—CO_2—A, effect of inert pressure on hydrothermal reaction, R. I. Harker, 128.
MnO—SiO_2, F. P. Glasser, 398.
oxide, phase equilibria at high temperatures involving changes in oxidation states, Arnulf Muan, 171.
nepheline-kalsilite, II. Phase relations, O. F. Tuttle and J. V. Smith, 571.

T

Taiga-tundra and the Full-Glacial period in Chester County, Pa., P. S. Martin, 470.
Taylor, Hall, review by, 685.
Teanaway dike swarm of central Washington, R. J. Foster, 644.
Tektites, Australian, role of aerodynamical phenomena, George Baker, 369.
Temperature, distribution in flowing wells, T. Boldzsar, 294.
Tertiary, Lower, idiomorphic zircon as key to volcanism, D. L. Callender and R. L. Folk, 257.
Tertsch, Hermann, 685. See Raaz, Franz.
Teschenite, differentiated sill, petrology, New South Wales, J. F. G. Wilkinson, 1.
Texas, central, idiomorphic zircon as key to volcanism in Lower Tertiary sands, D. L. Callender and R. L. Folk, 257.
Thompson, George, A., review by, 220.
Thornbury, W. D., The geomorphic history of the Upper Wabash Valley, 449.
Topography, sheeting and jointing in granite, Acadia National Park, Maine, C. A. Chapman and R. L. Rioux, 111.
Tundra, Taiga-tundra and the Full-Glacial period, Chester County, Pa., Paul S. Martin, 470.
Tunell, George, and Murdoch, Joseph, Laboratory manual of crystallography for students of mineralogy and geology (Review), 62.
654. See Dickson, F. W.
Turekian, K. K., 503. See Broecker, W. S.
Tuttle, O. F., and Smith, J. V., The nepheline-kalsilite system. II. Phase relations, 571.

U

Ultra-violet absorbing components of fossil and modern plants in relation to the thermal alteration of lignins, S. M. Siegel, et al., 48.
United States, Vertebrates of the United States, W. F. Blair, et al. (Review), 444.

V

Vapor, A further attempt to determine the vapor pressure of brucite, W. S. Fyfe, 729.
Variance, group operator, morphometric work with maps, Richard J. Chorley, 208.
Varnes, David, J., review by, 63.
Vermont, Interaction of basement and mantle during folding near Rutland, W. F. Brace, 241.
Quebec, Ordovician Highgate Springs sequence, Marshall Kay, 65.
Vertebrates of the United States, W. F. Blair, et al. (Review), 444.
Vokes, Harold E., Miocene fossils of Maryland (Review), 444.
Volcanism, idiomorphic zircon as key, Lower Tertiary sands of central Texas, D. L. Callender and R. L. Folk, 257.
Von Engeln, O. D., and Netschert, Bruce C., General geography for colleges (Review), 144.

W

Waagé, Karl, reviews by, 368, 444.
Wabash Valley, geomorphic history, W. D. Thornbury, 449.
Waldron, H. H., 384. See Crandell, D. R.
Waring, C. L., 529. See Matzko, J. J.
Washington, central, Teanaway dike swarm, R. J. Foster, 644.
Pleistocene sequence in southeastern part of Puget Sound lowland, D. R. Crandell, et al., 384.
White Bluffs, Ringold formation of Pleistocene age, R. C. Newcomb, 328.
Wasserburg, G. J., and Wood, John A., Jr., The solubility of quartz at high temperatures and pressures (Communication), 438.
Water, pressure-volume-temperature relations of water in the range of 100-400 C and 100-1400 bars, W. T. Holser and G. C. Kennedy, 744.
solubility of quartz at high temperatures and pressures, J. A. Wood, Jr., 40. Communication, G. J. Wasserburg and J. A. Wood, Jr., 438.

specific volume of liquid water to 100 C and 1400 bars, G. C. Kennedy, et al., 590.
the equation of state of water and sea water at low temperatures and pressures, Carl Eckart, 225.
White, S. E., review by, 299.
Wilkinson, J. F. G., Petrology of a differentiated teschenite sill near Gunnedah, New South Wales, I.
Willman, H. B., 518. See Frye, John C.
Winchell, Horace, reviews by, 62, 440, 685.
Wisconsin glacial margin in Illinois, permafrost features, J. C. Frye and H. B. Willman, 518.
Wood, John A., Jr., Solubility of quartz in water at high temperatures and pressures, 40.
438. See Wasserburg, G. J.

Z

Zircon, idiomorphic, key to volcanism in the Lower Tertiary sands of central Texas, D. L. Callender and R. L. Folk, 257.

CONTENTS TO VOLUME 256

NUMBER 1

The Petrology of a Differentiated Teschenite Sill Near Gunnedah, New South Wales ..... *J. F. G. Wilkinson* 1

The Solubility of Quartz in Water at High Temperatures and Pressures ..... *John A. Wood, Jr.* 40

Ultraviolet-Absorbing Components of Fossil and Modern Plants in Relation to Thermal Alteration of Lignins ..... *S. M. Siegel, B. LeFevre, Jr., and R. Borchardt* 48

New Stratigraphic Names for Early Pleistocene Deposits in Southwestern Kansas ..... *Claude W. Hibbard* 54

ESSAY REVIEW

Philosophy of Science; by Philipp Frank ..... *R. Mould* 60

REVIEWS

Laboratory Manual of Crystallography for Students of Mineralogy and Geology; by George Tunell and Joseph Murdoch ..... *Horace Winchell* 62

Landslides in Clays; by Alexandre Colin ..... *David J. Varnes* 63

Reptiles; by Angus d'A. Bellairs ..... *Joseph T. Gregory* 64

NUMBER 2

Ordovician Highgate Springs Sequence of Vermont and Quebec and Ordovician Classification ..... *Marshall Kay* 65

Nature of Glaucophanitic Metamorphism ..... *Akiho Miyashiro and Shohei Banno* 97

Statistical Study of Topography, Sheeting and Jointing in Granite, Acadia National Park, Maine ..... *Carleton A. Chapman and Robert L. Rioux* 111

The System MgO—CO_2—A and the Effect of Inert Pressure on Certain Types of Hydrothermal Reaction ..... *R. I. Harker* 128

ESSAY REVIEW

Mechanik der Erde; by Richard A. Sonder ..... *A. G. Fischer* 139

REVIEWS

Sedimentary Rocks, 2d ed.; by F. J. Pettijohn ..... *John E. Sanders* 142

Chazyan and Related Brachiopods; by G. Arthur Cooper ..... *G. Winston Sinclair* 142

Ordovician Trilobites of Argentina; by Horacio J. Harrington and Armando F. Leanza ..... *Reuben J. Ross, Jr.* 143

General Geography for Colleges; by O. D. Von Engeln and Bruce C. Netschert ..... *Erich F. Bordne* 144

NUMBER 3

Structural Petrology of Cambro-Ordovician Limestones of the North-West Highlands of Scotland ..... *C. B. Crampton* 145

Dynamic Interpretation of the Fabric of a Dolomite from the Moine Thrust-Zone in North-West Scotland ..... *John M. Christie* 159

Phase Equilibria at High Temperatures in Oxide Systems Involving Changes in Oxidation States ..... *Arnulf Muan* 171

Group Operator Variance in Morphometric Work with Maps *Richard J. Chorley* 208

DISCUSSION

The Nomenclature of Evaporite Textures ..... *F. H. Stewart* 219

Reply ..... *J. T. Greensmith* 219

REVIEWS

Handbuch der Physik, vol. 47; I. S. Flugge, editor ..... *George A. Thompson* 220

Elasticity, Fracture and Flow; by J. C. Jaeger ..... *W. F. Brace* 222

Principles of Stratigraphy; by Carl O. Dunbar and John Rodgers *Norman D. Newell* 223

NUMBER 4

Properties of Water, Part II. The Equation of State of Water and Sea Water at Low Temperatures and Pressures ..... *Carl Eckart* 225

Interaction of Basement and Mantle During Folding Near Rutland, Vermont ..... *W. F. Brace* 241

Idiomorphic Zircon, Key to Volcanism in the Lower Tertiary Sands of Central Texas ..... *Dean L. Callender and Robert L. Folk* 257

Narrow Linear Drumlins Near Velva, North Dakota *Richard W. Lemke* 270

Periglacial Loess, I. Morphological Properties *J. F. Gerard Millette and Howard W. Higbee* 284

The Distribution of Temperature in Flowing Wells ..... *T. Boldizsar* 294

ESSAY REVIEWS

Glacial and Pleistocene Geology; by Richard Foster Flint ..... *Sidney E. White* 299

Structural Geology; by L. U. de Sitter ..... *Rhodes W. Fairbridge* 300

PUBLICATIONS RECENTLY RECEIVED 302

NUMBER 5

Isostasy and a Theory for the Origin of Geosynclines ....*K. Jinghwa Hsu* 305

Ringold Formation of Pleistocene Age in Type Locality, The White Bluffs, Washington .....*R. C. Newcomb* 328

Late-Glacial and Postglacial Vegetation from Gillis Lake in Richmond County, Cape Breton Island, Nova Scotia
D. A. Livingstone and B. G. R. Livingstone 341

Orthoclase and Microcline Granites .....*Vladi Marmo* 360

DISCUSSION

Further Comments on Stratal Terms .....*W. J. Arkell* 365

REVIEWS

Géologie sédimentaire. Les séries marines; by Augustin Lombard .....*John Sanders* 365

The Living Rocks; by Stevan Célébonovic .....*Joseph T. Gregory* 367

Détermination Pratique des Fossiles; by André Chavan and André Cailleux
Karl M. Waagé 368

Acoustics; by Joseph L. Hunter .....*D. Mintzer* 368

Number 6

The Role of Aerodynamical Phenomena in Shaping and Sculpturing Australian Tektites ..... *George Baker* 369

Pleistocene Sequence in Southeastern Part of the Puget Sound Lowland, Washington ..... *D. R. Crandell, D. R. Mullineaux, and H. H. Waldron* 384

The System MnO—SiO_2 ..... *F. P. Glasser* 398

On the Stability of the Phase $Fe_2O_3.Al_2O_3$ ..... *Arnulf Muan* 413

Enlargement of the Composition Field of Epidote and Piemontite with Rising Temperature ..... *Akiho Miyashiro and Yôtarô Seki* 423

Clay Minerals from Salt Concentration Ponds ..... *William Quaide* 431

COMMUNICATION

The Solubility of Quartz at High Temperatures and Pressures *G. J. Wasserburg and John A. Wood, Jr.* 438

REVIEWS

Niels Henrik Abel, Mathematician Extraordinary; by Oystein Ore ..... *Henry Margenau* 439

Microcalorimétrie; by E. Calvet and H. Prat ..... *Julian M. Sturtevant* 439

Mineralogische Tabellen, 3d ed.; by H. Strunz ..... *Horace Winchell* 440

Introduction à l'Etude des Roches Métamorphiques et des Gîtes Métallifères; by Pierre Lafitte ..... *F. Chayes* 440

Geology of India and Burma, 3d ed.; by M. S. Krishnan ..... *C. F. Davidson* 442

Glacial Map of Canada ..... *Richard Foster Flint* 443

Miocene Fossils of Maryland; by Harold E. Vokes ..... *Karl M. Waagé* 444

Vertebrates of the United States; by W. F. Blair, et al. ..... *Joseph T. Gregory* 444

Geologic Field Methods; by Julian W. Low ..... *Donald H. Kupfer* 445

Publications Recently Received 446

NUMBER 7

The Geomorphic History of the Upper Wabash Valley
W. D. Thornbury 449

Taiga-Tundra and the Full-Glacial Period in Chester County, Pennsylvania ..... *Paul S. Martin* 470

The Relation of Deep-Sea Sedimentation Rates to Variations in Climate
W. S. Broecker, K. K. Turekian and Bruce C. Heezen 503

Permafrost Features Near the Wisconsin Glacial Margin in Illinois
John C. Frye and H. B. Willman 518

DISCUSSION

The Nomenclature of Evaporite Textures ..... *Bernard E. Leake* 525

PUBLICATIONS RECENTLY RECEIVED 526

NUMBER 8

Lead-Alpha Age Determinations of Granitic Rocks from Alaska
J. J. Matzko, H. W. Jaffe, and C. L. Waring 529

Three Pollen Diagrams from Central Massachusetts
Margaret Bryan Davis 540

The Nepheline-Kalsilite System. II. Phase Relations
O. F. Tuttle and J. V. Smith 571

Properties of Water. Part III. Specific Volume of Liquid Water to 100 C and 1400 Bars .....*G. C. Kennedy, W. L. Knight, and W. T. Holser* 590

DISCUSSION

Possible Permian Climatic Zonation and its Application .....*George W. Bain* 596

Reply .....*Francis G. Stehli* 600

COMMUNICATION
